COMPRESSION

The matrix will be compressed each week on Sunday morning at 12:01 am EST.

Paid Members - During compression the paid members will move up in the matrix above the free members and lock the next available position. Once all the paid member have been moved up, they will have a permanent position in the matrix and will not move in subsequent weeks.

Free Members - After the compression of the paid members, the Free members will fall chronologically into the matrix below the paid members. Free members will only be guaranteed a particular spot in the matrix until the next compression. Upgrading can be accomplished in the back office at any time and will lock in a position in the matrix.

Weekly Compression will only effect the new paid members, upgraded members for the week and the free members.

SPILL

It is a HYBRID MATRIX because it does not fill the way a normal matrix fills. Spill works in our matrix according to line of sponsorship and follows the 1, 1, 1, 2, 2, 2, and 3, 3, 3 method, instead of the 1, 2, 3, 1, 2, 3 and 1, 2, 3. This means everyone on that level will get spill in the position 1 before anyone has spill in position 2. When everyone on the level has position 1 and 2 filled, it starts with everyone's position 3.

When you personally refer another affiliate, your referral will be placed below you in your matrix, not beside you.

*For illustration purposes only. Individual results may vary based on individuals efforts, motivation, and abilities. Matching Bonuses are calculated on the base 3 x 3 Matrix payout. Matching Bonuses are not paid on Matching Bonuses.
